

# SpineWorks Chiropractic clinic Web Accessibility Statement

We are committed to making the SpineWorks Chiropractic clinic website available to all users, including those with disabilities. As part of this commitment, we are continually improving our website to ensure we provide equal access to all of our users.

## General

SpineWorks Chiropractic clinic has invested a significant amount of resources to help ensure that our website is made easier to use and more accessible to people with special needs, including those with visual, hearing, cognitive and motor impairments. We are updating our site regularly to make it as accessible as possible.

## Accessibility

SpineWorks Chiropractic clinic makes available the UserWay Website Accessibility Widget that is powered by a dedicated accessibility server. The software allows RCI Injury Treatment Center to improve its compliance with the Web Content Accessibility Guidelines (WCAG 2.0).

Our team also uses tools such as, WAVE by WebAIM, Web Accessibility by Monsido, and other color contrast analyzers to ensure the best experience possible for all visitors.

The site is being designed to meet Level AA Success Criteria of the Web Content Accessibility Guidelines 2.0 to the greatest extent feasible.

## Disclaimer

SpineWorks Chiropractic clinic continues its efforts to constantly improve the accessibility of its site and services in the belief that it is our collective moral obligation to allow seamless, accessible and unhindered use also for those of us with disabilities.

Despite our efforts to make all pages and content fully accessible, some content may not have yet been fully adapted to the strictest accessibility standards. This may be a result of not having found or identified the most appropriate technological solution.

We make reasonable efforts to ensure that PDF files posted on our website are accessible.

## Accessibility Problem or Suggestion

If you have any concerns or suggestions regarding the accessibility of the SpineWorks Chiropractic clinic website, please use this form to provide your feedback. We value your feedback and will consider all suggestions as we evaluate ways to accommodate all users of our website and our overall accessibility policies.
